Re-Elect Mahon Hughes for Webmaster

Why Mahon?

I have been involved in Cambridge theatre for a little over three years, first with town shows, then with Student Theatre.

Thus, I have quite a lot of experience with both Town and Student Theatre and know what works the best from both settings.

I live and breathe theatre and would love to continue to be involved at committee level. With your support, I will be able to keep CUADC's systems running smoothly and improve access through our web systems.

Experience

- I am a Second Year Computer Science Student at Anglia Ruskin University.
- I am predominantly a Lighting Designer but have been involved in many aspects of Cambridge Student Theatre.
- I am a Camdram Administrator.
- I am proficient in web development and I think that my skills could continue to be very useful within CUADC.

Policies

The CUADC wiki is an excellent resource for those who use the theatre. Now that the wiki has been integrated into Camdram, I'd like to publicise it more and encourage people to expand it and add more content. This will help to improve access as people who are looking to take on a role now have a link to the role's wiki directly from Camdram.

A powerful tool we have is the feedback form which, sadly, fewer people than we'd like know about. I'd like to encourage more use of this form as any feedback given is discussed at committee meetings, allowing everyone's voice to be heard.
