

## Vivian Wang

### A little bit about me

Hiya! I am Vivian Wang, a first year engineering student at Queens' College and I am running for the **Actors' Rep!**

### How I am involved with CUADC

I was in the freshers' play at the Corpus Play Room **The government Inspector** and I played the role of Khlopov. I am also preparing for two shows this term: **Macroevolution Variant B** and **As Seen As Possible**. (Come watch the shows!)

### Why I want to run for Actors' Rep

I have experience of handling group discussions and representing everyone's interests in secondary school where I was the president of a movie society. This also meant maintaining a social account for subscribers and emailing list of all members.

As an International Asian student, I believe being an actor's representative will ensure the fair representation of actors from under represented groups in theatre.

As someone who had never done theatre before in her life (and is now taking an active part in theatre), I want to create a pathway for people like me in participating in theatre where all levels of previous performing experiences are welcome and encouraged.

### What I would do if elected

Create a safe space for the all actors especially under represented groups in theatre, where they feel as comfortable as possible to take on new challenges.

Encourage members (and non-members as well!) of the society who have never tried performing before to take part in acting and performing. This can include ADC Bar quizzes and possibly formals! (Yay)

Organise regular workshops and socials where acting skills and line-memorising techniques are discussed. These workshops should be at least once every two weeks to ensure that people who decide to join the CUADC in the middle of term have the opportunity of participating and learning.
